

All concerned;

Re: the move to digital radio, I am concerned that many small stations in my local listening area, KALW, KZSU, KKUP to name a few, will be forced off the air. I encourage another look @ Eureka 147 or making the move to digital VOLUNTARY.

I can assure you that the industry's claim of higher SOUND quality is NOT what the general public wants. They want higher PROGRAMMING quality.

regards

Gerald Haussler
